Department of Civil Engineering

Program Educational Objectives

Graduates will advance in their professional careers in civil engineering or related fields, demonstrating leadership and teamwork skills.

Graduates will apply technical knowledge and skills to solve civil engineering problems, contributing effectively to project planning, design, and execution.

Graduates will engage in lifelong learning through further education, professional development activities, or licensure to adapt to evolving technological and societal needs.

Program Specific Outcomes

The graduates will have the ability to plan, analyse, design, execute and maintain cost effective civil engineering structures without overexploitation of natural resources.

The graduates of civil engineering program will have the ability to take up employment, entrepreneurship, research and development for sustainable civil society.

The graduates will be able to pursue opportunities for personal and professional growth, higher studies, demonstrate leadership skills and engage in lifelong learning by active participation in the civil engineering profession.
